Subject: Daily Summary

Thanks for the daily summary provided last night.

Only minor suggestions:

Maybe explain that the OPERA is the waste staging area, and the gross decon is for response equipment and not any facility scrap metal, etc.

Regarding the home assessments, are these numbers for debris, asbestos, damage, or all of the above? If all, then maybe we should show the three numbers separate (debris, asbestos, and damage)?

Thanks

VR,
Adam
